Longrifle AI LLC

CAPABILITY STATEMENT

AI CONSULTING + CUSTOM IMPLEMENTATION

SERVICE-DISABLED VETERAN-OWNED

CERTIFIED SDVOSB · VOSB

SCHAUMBURG, ILLINOIS

Senior engineers who turn high-friction workflows into secure AI systems: fit assessment through integration and sustainment.

CORE COMPETENCIES

Applied AI and Workflow Assessment

Map the mission, workflow, data, systems, and constraints; deliver a fit/no-fit recommendation and a build-first decision.

Custom AI Integration

Engineer language models, machine vision, and agent workflows into existing applications and operating environments.

Document and Data Intelligence

Extract, classify, redact, translate, reconcile, and route mission data with human approval and traceable outputs.

Private and Offline AI Systems

Deploy locally on client-controlled infrastructure, including disconnected environments where data cannot leave the boundary.

Production Deployment and Sustainment

Ship, monitor, harden, document, and maintain the system through its operating life.

WHY LONGRIFLE

- Senior engineers stay in the room and ship the code.
- Human approval gates for consequential actions.
- Client data never trains external models.
- Security architecture starts with the data boundary.
- Audit trails are designed into the workflow.
- Handover-ready systems without forced platform lock-in.

REPRESENTATIVE EXPERIENCE

Founder-led enterprise AI delivery

Before Longrifle, founder Miguel Franco built production redaction, document and image translation, litigation extraction, and private model orchestration systems. Systems he built processed more than 100,000 documents inside client-controlled environments.

> **Sensitive banking workflow.** A founder-built system replaced an offshore manual document process with an onshore automated pipeline, reducing turnaround from weeks to one day while improving accuracy.

Representative experience reflects work performed by the founder before Longrifle AI LLC and is not presented as Longrifle corporate past performance.

COMPANY DATA

LEGAL NAME

Longrifle AI LLC

LOCATION

Schaumburg, Illinois

BUSINESS TYPE

Small business; certified service-disabled veteran-owned

SAM.GOV

Active, all awards

SBA VETCERT

Certified SDVOSB and VOSB (09/2026)

UEI

K858N3JYZ814

CAGE

22VK0

NAICS

541511 (Primary) · **541512** · **541519** · **518210**

PROCUREMENT POSITION

SAM.gov active. Certified SDVOSB and VOSB (SBA VetCert). Eligible for set-aside and sole-source awards, teaming, and subcontracts.

MISSION USE CASES

- Document intake, extraction and redaction
- Claims, case and correspondence triage
- Knowledge retrieval and analyst support
- Compliance review and audit support
- Field data capture and workflow routing
- Secure, locally deployed AI

ENGAGEMENT MODEL

01 Assess workflow and systems
02 Make the fit/no-fit decision
03 Design the security architecture
04 Build and integrate
05 Deploy and sustain
